

Program Objectives:

At the conclusion of this program, the participant will be able to:

- Relate current trends in diabetes and pre-diabetes and the physical, social and economic impact of the disease.
- Describe gluten intolerance and sources of gluten.
- Describe the connection between Type 1 diabetes and gluten-intolerance.
- Recognize the effects of malabsorption and dietary restriction on glucose control.
- Identify four key points in assessing the foot of a person with diabetes.
- Contrast the traditional diabetes care practice with Shared Medical Appointments for persons with long-standing diabetes.
- Describe the role of the diabetes educator in Shared Medical Appointments.
- Incorporate three reality therapy principles into all aspects of care for persons with diabetes.
- Differentiate the various classes, actions and indications of diabetes medications including orals, injected medications and insulins.

Nebraska Association of
Diabetes Educators
presents:

New Perspectives In Managing Diabetes

Friday, March 28, 2014
Holiday Inn Hotel
and Conference Center
110 2nd Avenue,
Kearney, NE

Target Audience

The program is designed for Healthcare professionals who care for persons with diabetes in various clinical settings.

Purpose:

To increase essential knowledge and skills of healthcare professionals who want to enhance their ability to work with persons with diabetes and persons at risk of diabetes. The program will include strategies for supporting these individuals in changing behaviors.

Continuing Education:

Continuing education hours including LMNT have been applied for.

The American Association of Diabetes Educators (AADE) is accredited as an provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation (ANCC).

The American Association of Diabetes Educators (AADE) is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR).

The American Association of Diabetes Educators (AADE) is accredited by Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.
